STANDARDS

This personal protective equipment complies with the requirements of the following harmonized standard:

EN 149:2001+A1:2009: Respiratory protective devices. Filtering half masks to protect against particles.

Certification was carried out by the notified body No. 2834 (CCQS CERTIFICATION SERVICES LTD, Block 1 Blanchardstown Corporate Park, Ballycoolin Road, Blanchardstown, Dublin 15, D15 AKK1, IRELAND), certificate number CE-PC-200321-074-FPC-H, dated 11 December 2025.

UNITS IN A CARTON	500 pcs
NUMBER OF PIECES PER BOX	25 PCS
CARTON WEIGHT	9,4 kg
CARTON SIZE	0,107 m ³
UNIT PACKAGING	1 pc

FFP3 respiratory protection masks provide the highest possible level of protection against exposure to polluted air. With a maximum total inward leakage of 5% and a required protection efficiency of at least 99% against solid particles up to a size of 0.6 µm, they are capable of filtering toxic, carcinogenic, and radioactive solid particles. This personal protective equipment (PPE) is intended for single use only. **DO NOT REUSE.** Do not wash or clean. Before use, check that the PPE is not damaged. Do not use the PPE if it is damaged or if you observe any signs of deterioration or tearing. Do not attempt to repair the PPE yourself. Avoid fire and strong sources of heat. The PPE has no additional components or parts.

When not in use, the PPE must be stored in a dry, well-ventilated area away from direct sunlight. During transport, use only the original packaging. Protect from moisture and extreme temperatures. After use, dispose of the PPE in an environmentally friendly manner.
