INDUSTRIAL BUMP CAP

**ARTIKL No.**                    **D1315 – black**  
   **D1316 – blue**  
   **D1317 – Hi-Viz yellow**

<b>MATERIAL</b>	ABS, Polyester
<b>COLOURS</b>	Black, Blue, Hi-Viz yellow
<b>SIZE</b>	UNI

## DESCRIPTION

This innovative impact-resistant sports cap is designed for ultimate protection and comfort. Weighing a mere 160g, it's incredibly lightweight. Engineered for maximum comfort and breathability, it offers high durability against overhead impacts and blows.

Easily adjust the size to fit head circumferences from 52 to 65 cm. An integrated sweatband ensures high comfort, even during extended wear. The lightweight microfiber fabric reduces moisture and enhances air circulation, while a ventilating mesh on the top increases breathability. The front peak measures 3 cm in length.

\*This cap protects the user from contact with stationary objects such as low ceilings or hanging objects. It is not intended to protect against falling objects.

This working cap does not provide unlimited protection. For your own protection read the instruction carefully. When not in use, it is recommended to store this working cap in a clean and dry environment and placed away from direct sunlight and out of sources of solvents. This working cap is designed for your personal safety. It must be worn during the whole duration of exposure to any potential hazard. Leave the work area immediately if the working cap becomes damaged. To maintain your working cap in optimum conditions do not use any abrasive materials or solvents and clean any part of the working cap with warm soapy water and dry with a soft cloth. A mild disinfectant can also be used, in line with the manufactures instructions, if required. Only use original accessories and spare parts (harness made and supplied by the manufacturer). Inspect for damage regularly. If the shell or harness, working cap show any signs of damage, it must be replaced immediately. The service life of the bum cap is 4 years from the manufacturing date. This can vary depending on how often it's used and the environment it's used in.
