ARDON[®] REFIWAN[®]

WOMAN BIB PANTS

ITEM CODE H6238

MATERIAL 58% cotton, 40% polyester, 2% carbon fiber
GRAMMAGE 220 g/m²
COLOUR Dark grey
SIZE 34 - 62

DESCRIPTION

Ladies' bib overalls certified according to EN ISO 13688, EN ISO 1149-5 and EN 61340. The optimum grammage means the fabric is breathable, making it the ideal choice for production facilities and outdoor use. Besides being anti-static, the carbon fibre makes the fabric strong and highly durable. The functional line of pockets in the seams means there is no layering of material; designed with no visible zips. The trousers have 2 slit pockets, 2 pockets on the front of the legs and 2 back pockets. A saddle divides the rear part. The ADN[®] AdaptBelt technology allows the waist width to be adjusted smoothly with every movement without feeling restricted. There is 1 inner zipper pocket on the bib and elasticated braces with a buckle for easy length adjustment. Sophisticated, anatomically shaped 3D Silhouette cut COMFORT FIT with contoured knees and a double layer of material at the knees for increased durability. Reflective strips on the front and back for extra visibility. The trouser length can easily be extended by 5 cm. The garment has no metal accessories and is designed for industrial washing. Compatible with the ARDON[®] REFIWAN[®] ID card.

Anti-static collection ARDON[®] REFIWAN[®] dark grey is classified as Category 2 (CAT II) personal equipment (PPE) under regulation (EU) 2016/425 of the European Parliament and of the Council on personal protective equipment and repealing Council Directive 89/686/EEC and complies with the requirements of the following standards:

EN 1149-5:2019 Protective clothing – Electrostatic properties – Part 5: Material and design requirements.

EN ISO 13688:2014/A1:2022 Protective clothing – General requirements.

EN 61340-5-1:2016 Electrostatics – Part 5-1: Protection of electronic devices from electrostatic phenomena – General requirements.

The service life depends on the degree of use and the rate of wear in the given conditions. Improper storage conditions, improper maintenance and care shorten the service life. The warranty period is 24 months. In no case should the warranty period be confused with the service life of the product. With intensive use, the service life may be shorter than the warranty provided.

The product does not contain any substances in concentrations that are known or suspected of adversely affecting the hygiene or health of the user. However, skin irritation is not excluded for sensitive people, in which case do not continue to wear clothing. Avoid fire and sources of intense heat.

No accessories or spare parts are intended for these garments. If clothing is not in use, it is recommended to store it in a dry and well-ventilated area away from direct sunlight. Transport preferably in the original packaging, protect from moisture and extreme temperatures. Dispose of ecologically after use.
