Tabiflex®: 92 % nylon, 8 % elastane

REINFORCEMENT

Cordura®: 100% nylon

GRAMMAGE

250 g/m²

SIZE

46 - 64

DESCRIPTION

Work trousers with stretch inserts are designed for maximum comfort and durability. The combination of modern materials ensures excellent strength, flexibility and durability even in harsh conditions. The trousers are made of a special fabric with reinforced Cordura® panels for maximum protection against abrasion. The anatomical 3D Silhouette COMFORT FIT allows freedom of movement, while ergonomic lines ensure these trousers are comfortable to wear, with mesh side ventilation zippers helping to dissipate heat. The elasticated waistband enables easy adjustment of the waist circumference. The trousers are fitted with rivets for increased durability and a metal D-ring for attaching objects. The practical features include 2 deep gusseted pockets, 2 zipper pockets for mobile phones and small items and two multi-purpose zipper pockets at the back. For added safety, the trousers feature dynamic reflective elements for improved visibility when working in low light conditions. The bottom hem of the trousers has zippers that allow the trouser bottoms to be widened so they can easily be pulled over wider boots, as well as hidden metal hooks to keep the trousers perfectly in place. The trousers are compatible with additional reinforced tool pockets designed to be attached to the belt with Velcro fasteners. A set of additional tool pockets, which completes the collection, can be ordered separately under order number H6260.

This personal protective equipment is in conformity with the requirements of the following harmonised standard:

ČSN EN ISO 13688:2013 – Protective clothing – General requirements

The ®ULTRITE® collection meets the requirements for health safety and is a holder of **OEKO-TEX®Standard 100 certification, PG020 certificate number 128167 OETI.**

CARTON WEIGHT	17 kg
CARTON SIZE	0,07 m ³
UNIT PACKAGING	of 1 pc

The service life depends on the degree of use and the rate of wear in the given conditions. Improper storage conditions, improper maintenance and care shorten the service life. The warranty period is 24 months. In no case should the warranty period be confused with the service life of the product. With intensive use, the service life may be shorter than the warranty provided.

The product does not contain any substances in concentrations that are known or suspected of adversely affecting the hygiene or health of the user. However, skin irritation is not excluded for sensitive people, in which case do not continue to wear clothing. Avoid fire and sources of intense heat.

No accessories or spare parts are intended for these garments. If clothing is not in use, it is recommended to store it in a dry and well-ventilated area away from direct sunlight. Transport preferably in the original packaging, protect from moisture and extreme temperatures. Dispose of ecologically after use.
