DESCRIPTION

These ladies' trekking trousers combine lightness, breathability and high durability. They are fitted with inserts made of strong ripstop material, making them long-lasting and resistant to tearing and abrasion. The water-repellent BIONIC FINISH® ECO coating protects against water and dirt, making the trousers quick to dry while staying breathable. Up to 90% of this impregnation is made from renewable natural raw materials without the use of PFAS, or 'forever chemicals'. It stays effective even after repeated washing and is friendlier to the environment and your well-being than traditional treatments. The modern fit and sophisticated design make these trekking trousers the ideal choice for the outdoors and the city. They offer the greatest possible freedom of movement and comfort with every step. The side ventilation zippers that effectively dissipate heat make these trousers lightweight and ideal for any challenge. They feature some great practical details such as zipper pockets for storing small items, zippers to widen the bottoms and a hidden hook for attaching the trousers to walking boots. Reflective elements for extra visibility and safety in low light conditions. Embark on an adventure with these wonderfully comfortable and original trousers.

This product is not PPE (personal protective equipment); therefore, it is not subject to certification and cannot be CE-marked.

NUMBER OF PIECES IN CARTON	20 pcs
CARTON WEIGHT	16 kg
CARTON SIZE	0,07 m ³
UNIT PACKAGING	of 1 pc

The service life depends on the degree of use and the rate of wear in the given conditions. Improper storage conditions, improper maintenance and care shorten the service life. The warranty period is 24 months. In no case should the warranty period be confused with the service life of the product. With intensive use, the service life may be shorter than the warranty provided.

The product does not contain any substances in concentrations that are known or suspected of adversely affecting the hygiene or health of the user. However, skin irritation is not excluded for sensitive people, in which case do not continue to wear clothing. Avoid fire and sources of intense heat.

No accessories or spare parts are intended for these garments. If clothing is not in use, it is recommended to store it in a dry and well-ventilated area away from direct sunlight. Transport preferably in the original packaging, protect from moisture and extreme temperatures. Dispose of ecologically after use.
